Why the big fuss about Microsoft's so-called monopoly? Why not prosecute those companies that are tying up U.S. food companies into mega-monopolies--i.e. Cargill WalMart Phillip Morris Tyson-Smithfield (including IBP) ADM Nestle's ties into U.S. companies etc. These are the people who are sacking the consumer! Please use taxpayer resources for protecting the taxpayers--not for protecting your friends in big businesses Oracle Netscape Sun Micro et al.
